

LAMAR

About us

Alexandria Agricultural Company was established in 1985 with the aim to supply high quality raw milk to other companies. In 2012, we started manufacturing our own milk, Lamar. Our main goal remains to deliver products of excellent quality that are nationally and internationally appreciated.

The secret of Lamar's success is having a self-sufficient and independent farm, where all the manufacturing steps take place. As our motto suggests, our milk comes "Straight from the farm to the pack". The farm sits on 3,350 acres, where we raise over 3,000 cows, grow their food including corn and fodder, and plant fruits such as red and white grapes, apricots, and pomegranates.

Lamar provides full cream, half-skimmed, skimmed milk and 0% fat milk, all of which are 100% natural without any additives. In addition, to cater to those lactose intolerant, we launched the lactose free range which comes in full cream and skimmed milk tailored to the preference of each consumer without compromising on taste and quality. Additionally, Lamar produces flavored milk that is fortified with vitamins A & D, which comes in four different flavors: Chocolate, Strawberry, Banana and Cookies & Cream.

Lamar has recently introduced its plant-based, dairy-free range named TOM (The Other Milk). The first launch of the range consists of three kinds: Almond Milk, Oat Milk, and Barista Oat and Barista Almond. Followed by its one of a kind Biscuit Oat Milk and Chocolate Almond Milk in 200ml.

In addition to the milk, Lamar produces diverse juices, drinks, and even cooking & whipping creams. Our juices are 100% natural and available in 9 different flavors. Lamar additionally provides a line of tasty drinks available in 8 different flavors. Essential to wholesome meals are our Cooking and Whipping creams available in different sizes.

Lamar's international presence is remarkable as it is the first and only Egyptian company that exports juice to Japan. Moreover, Lamar's global presence stretches over four continents.

Our mission remains the same: To make consumption of food products healthier and more enjoyable by providing top quality products through an integrated supply chain.

DAIRY MILK

LAMAR Milk

Ever since Lamar established itself in the market, it has focused its efforts to deliver premium quality milk that is 100% natural and free of preservatives, coming straight from our farm. Lamar's milk is full of nutrients that are vital for a healthy body. Lamar provides its consumers with Full Cream, Semi-Skimmed, Skimmed and 0 % Fat milk.

We also provide Lactose Free products that cater to those that are lactose intolerant, providing them with a delicious alternative without compromising on taste and quality. The range is available in Full cream and Skimmed milk.

DAIRY ALTERNATIVE

TOM

Non Dairy

TOM, The Other Milk, is a new alternative milk brand by Lamar. The first launch of the range consists of 6 plant-based and dairy-free milks: Almond Milk, Oat Milk, Barista Oat, Barista Almond, Coconut Milk (1L), as well as Biscuit Oat Milk & Chocolate Almond Milk (200 ml) that fulfill the needs of vegans and those who suffer from lactose intolerance. Our Other Milk range is low in fat, an excellent source of vitamins and calcium, and rich in fiber, providing

8 consumers with an essential addition to a healthy lifestyle.

LAMAR

Almond Milk

Lamar offers Almond Milk for our lactose-intolerant and vegan consumers. Our Almond milk is naturally low in calories, free of cholesterol, free of saturated fats, and fortified with calcium and vitamins A & D.
